

# Same proven immunonutrient blend in fewer servings per day

At Nestlé Health Science, we're always innovating. IMPACT Advanced Recovery® is now available in a **new serving size** with **fewer servings recommended per day** when used as part of a surgical protocol.

## Evolved protocol with new serving size

A simple protocol has just gotten simpler! Patients consume **two 8.45 fl oz cartons per day for five days before and/or after surgery.**

## Same proven immunonutrient blend

Patients undergoing major elective surgery will benefit from the **same unique blend** of L-arginine, omega-3 fatty acids and dietary nucleotides clinically proven to support improved outcomes,<sup>1-2</sup> now in **fewer servings** per day.

## Patient convenience

Opened cartons can be reclosed and conveniently stored in the refrigerator for up to 24 hours, making it easy for patients to **carry, consume and recycle.**

# Same proven blend of immunonutrients • Fewer servings per day • New serving size
