

FOR MEDICAL PROFESSIONAL USE ONLY

Gerber® Good Start® Extensive HA® Powder Infant Formula

## Macronutrient Values for Gerber® Good Start® Extensive HA® Powder Infant Formula

### Macronutrient Values

Gerber® Good Start® Powder	Calories per Gram of Powder	Per Scoop of Powder (gm)				Per Tablespoon of Powder (gm)			
		Calories	Carbs	Protein	Fat	Calories	Carbs	Protein	Fat
Extensive HA®	4.93	22.7	2.49	0.57	1.16	40.50	4.45	1.01	2.07

Values are approximate, based on calculated results. Measuring powder by weight yields the most accurate results. If an exact dilution is not required and powder is measured by volume, powder should be level and unpacked. As with any powdered infant formula product, use with immune compromised infants is not recommended. When such use is necessary, we recommend following the Academy of Nutrition and Dietetics guidelines for safe preparation, storage, and administration.
