SAY YES TO DINNER AGAIN

WITH SUPPORT FOR
YOUR MEAL-TRIGGERED INDIGESTION†

POWERED BY NATURE.... PERFECTED BY SCIENCE

DO YOU EXPERIENCE FEELING UNCOMFORTABLY FULL, NAUSEOUS OR BLOATED AFTER MEALS?

16%
of Americans
experience these
symptoms¹

We understand how these symptoms can be unpredictable, uncomfortable and exhausting. They can significantly impact your daily life.²⁻⁶

Many people try a range of methods to help relieve their symptoms, but don't get the results they want and experience unwanted side effects.^{6,7}

This is why we developed FDgard[®] capsules, made with caraway oil and I-Menthol, which work together to help relax the digestive system and manage occasional symptoms in the gut.[†]

THE FDgard[®] DIFFERENCE

FDgard[®] capsules are the only product that uses patented Site-Specific Targeting (SST[®]) to help manage meal-triggered indigestion, designed to deliver caraway oil and I-Menthol to where they are needed.[†]

Caraway oil and I-Menthol
Work together to help relax the digestive system and manage occasional symptoms in the gut[†]

The herbal ingredients are contained in uniquely designed tiny spheres with a three-layer coating.

All three layers work together to help release the herbal ingredients to the source of your occasional symptoms — for fast action.[†]

POWERED BY NATURE.... PERFECTED BY SCIENCE

THE GENTLE APPROACH

This targeted release allows direct action for a gentle approach. The caraway oil and I-Menthol in FDgard[®] help to calm the gut and manage a combination of occasional abdominal symptoms.[†]

This triple coating technology also minimizes the potential for heartburn, unlike single coating technology used in peppermint oil products containing I-Menthol.

FDgard[®] HAS BEEN SHOWN TO ACT WITHIN 24 HOURS[†]

FDgard[®] capsules start working on meal-triggered indigestion in as little as 24 hours[†]
