2% Milk	8 fl oz		3-4		5-6
POWDERED MIX					
Carnation Breakfast Essentials® Powder (prepared with 8 fl oz skim milk)	9 fl oz (prepared)		3-4		5-6

Recommended Mixing Procedure

- Place recommended amount of ThickenUp® Clear powder into a 12 fl oz or larger glass or container.
- Pour half the beverage over powder in glass and stir briskly for 5-10 seconds.
- Add remaining amount of beverage to glass and stir until dissolved, about 20-30 seconds. Make sure to reach bottom of container while stirring in order to assure beverage is adequately blended.
- Let stand for at least 15 minutes to allow beverage to reach the appropriate consistency.**
- Stir well and serve immediately. If not served immediately, stir again before serving.

The amount of thickener may need to be adjusted to meet individual requirements, facility standards, type of liquid or mixing temperatures.

† BOOST BREEZE® does not thicken when used with ThickenUp® Clear.

NOTE: Blending will cause the thickened supplement to become foamy in texture.

Suitable for use with the IDSSI framework.

Alternate Mixing Procedures

Shaker Method

- Measure appropriate amount of ThickenUp® Clear powder into a 12 fl oz or larger shaker container with tight fitting lid.
- Pour the supplement into the container; cover tightly and shake for 10-20 seconds.
- Let stand for at least 15 minutes to allow beverage to reach the appropriate consistency.**
- Stir and serve immediately. If not served immediately, stir again before serving.

NOTE: Shaking will cause the thickened supplement to become foamy in texture.

Blender Method

- Pour supplement into the blender container and add appropriate amount of ThickenUp® Clear powder.
- Cover and blend for 10-20 seconds; portion into a glass.
- Let stand for at least 15 minutes to allow beverage to reach the appropriate consistency.**
- Stir and serve immediately. If not served immediately, stir again before serving.
